March 31st, 2020**Subject: COVID19 - extension of the force majeure duration**

Dear Valued Suppliers,

We refer to our last letters dated March 19th, 2020, by which Safran Aircraft Engines notified you of the occurrence of a force majeure event, and March 26th, 2020 by which Safran Aircraft Engines shared its forecast of a force majeure duration of 6 to 8 weeks.

The French government has extended the containment measures until April 15th, 2020, being noted that these measures may be extended depending on the health situation on the territory (statement by Edouard Philippe, Prime Minister, on March 27th, 2020). In light of this announcement, Safran Aircraft Engines hereby confirms that the duration of the force majeure event extends until at least April 15th.

We will keep you informed of any evolution of the situation in the context of this global pandemic and remain at your disposal should you have any questions.

Best regards,

Dominique Dupuy
Senior VP Purchasing
