

AUBERT & DUVAL FOLDER FOR PRESENTING DOCUMENTS TO CUSTOMERS

A 4-page-and-something folder is now available.

Introducing Aubert & Duval in a nutshell, it can enclose more specific documents like market brochures, data sheets, quotations, etc. To be used when you believe there is a need to remind/inform the prospect or customer of the basic A&D situation and product offer.

Being made as a 4-page brochure + 2 insertable 'flaps', it protects the documents and allows the insertion of your business card inside the bottom flap

You will find attached a .pdf file showing the content of the folder + some in-situ pictures to show how it can be used.

Copies can be ordered to Henriette Tassin in Gennevilliers.
